**RE: CONSTRUCTION COMPLETION NOTIFICATION  
SNOHOMISH LOOP**

To Whom It May Concern:

This letter is notification that the construction activities associated with your property and Williams-Northwest Pipeline's (Williams) installation of the 36" natural gas pipeline facilities has been completed.

At your earliest convenience please contact Williams' Land Representative Scott Swan, (619) 203-5182 to schedule a walk through and inspection of our completed restoration. In the interest of time you are encouraged to begin scheduling your fencing and/or landscaping contractor(s) to expedite completion of the desired final restoration of your property.

Preceding any encroachment onto Williams' right of way and easement the following list of activities should be considered in sequence.

- 1. Contact Williams' Land Representative to arrange for a final walkthrough and inspection.**
- 2. Contact Williams' Redmond District Operation personnel for an encroachment permit/agreement, (425) 868-1010.**
- 3. Ensure the "ONE CALL" system is utilized at least 48-hours in advance of digging by either you or your contractor(s), (800) 424-5555.**

Thanks again for your patience, cooperation, and assistance during the installation of Williams' 36" natural gas pipeline facilities.

Yours truly,

Scott Swan  
Land Representative
